THE BURNING CROSS—Although the North, particularly New York, dealt a severe snub to the famous (perhaps we should say notorious) Ku Klux Klan, they still meet for the alleged purpose of seeing that justice, fair play and equal protection is given. This photo was made just outside Atlantic, Ga. The man with outstretched arm is the leader. Note the two crosses on his breast. (U. & U.)

Fresh From Paris

PARIS, France.

THE period silhouette bids fair to claim much attention at the Paris open-
ing this fall, and meanwhile the woman who has placed her faith in
the straight little gown with low waistline waits with abated breath. In
the interim, however, since the outline seems to be evenly divided, one's
choice may be a matter of individual preference. The dinner gown at the
left, of the chemise type, is of black satin woven with steel threads, fea-
turing the bureau neckline and low placed girde. Silver lace is used for
the flowing sleeves and the girde and falls in a looped panel over each
hip at one side, also forming a narrow train.
TOWN (at right) of Chinese green bordered in gold cloth. One
of the very new touches lies in the deep scallops that trim both the tunic
and the skirt edge. The back of the bodice is exceedingly good, with the
tasseled sash ends falling from the pointed décolletage. A band of gold
daisies with jet centres wreathes the hair.

JESSE GUILFORD CHASE BY SIX UP IN EIGHTEEN HOLES

By ROBERT E. HARLOW.

Yesterday, Jesse Guilford Chase was six up on A. Perle Chase of Winchester at the end of their eighteenth holes in their match for the state amateur golf championship today.

Chase..... 5 4 4 5 4 3 3 = 28
Perle..... 4 5 3 4 5 4 3 = 26

Chase did not play as well as expected. He held many short holes and took a winning putt. With such a substantial lead in his favor, Chase was practically certain of taking the title.

Chase won the first hole with a four. His second was well on, when a Guilford's second was just off the edge and he took a five.

Chase missed up the second hole. His second shot was a little high and his fourth was trapped. He picked up the ball from the cup in the fifth hole. From the third hole Chase's second was short of the green. Jesse was in a hole with a regulation four hole, Chase taking five.

Guilford drove into the trap in front of the green and fourth and Chase hooked and won far short. He missed the hole and took a five. Jesse was two three from the pin and he missed a putt.

Chase missed his drive but from the fifth tee, he got out a second shot on the green. Chase's third shot was in a hole. Chase just shot in two from the hole in 5.

Guilford was just off the edge with his drive to the short hole. Chase drove on the green. Chase was with a 5. Guilford missing a short putt for a half.

Heavy Fog Splits Eastern Yachts in Two Divisions

Boatmen Harbor, Me. July 9.—A typical New England fog production split the Eastern Yacht Club boat race into two divisions. The entire fleet started for Rockland in the morning with the schedule, but unfortunately the yachts were not started, and despite some of the big mist elements, kept for the Rockland. The race on the west side of Buzzards Island were driven back by new fog banks and returned to their moorings.

It was expected that the fleet would quite turn up at Rockland Harbor on the west side of Buzzards Island.

The fleet, which returned to the harbor anchored near a point of land, and all hands were on deck. The fleet was under the order of the Rockland Harbor Yacht Club.

A meteorological note to the fleet—The fleet was under the order of the Rockland Harbor Yacht Club.

WILSON AND GEORGES Jack Dempsey's Great 'Generosity' Babe Ruth and Kelly Again

By JACK CONWAY.

Johnny Wilson, world's middleweight champion, remains in the news, Manty Kilgus, manager of the conqueror of Mike O'Dowd, created a stir in the camp of Georges Carpentier by announcing that Wilson is prepared to battle the Frenchman and would knock the foreigner out just as quickly as Dempsey did.

Wilson would enter the ring weighing 165 pounds if he should fight Carpentier. Georges would scale at 172 pounds, which would mean that there would not be a great deal of difference in the poundage of the two men. And if it should come to pass that Wilson should knock Carpentier out the latter would not have a groggy ally unless he should state that the Charleston man violated Rule No. 18,507 by burying his left hand six inches inside of the pit of his rival's stomach. This is the blow that caused Mike O'Dowd so much annoyance in New York on St. Patrick's Day night.

Jack Dempsey lived up to the promise he made to the public by displaying his most professional abilities when he gave "Mother Barrett" a present of \$100 for cooking for his household at Alport for ten weeks. The champion, slugging the prize Barrett at the rate of \$10 a week for cooking for the cooking for ten weeks.

Ruth is not only the greatest batter in baseball but he also has a style which no other player has been able to successfully imitate. Babe takes his eye off the ball when he starts to swing. He "picks the ball up" while in the midst of his swing. And the outsiders who watch him start racing towards the fence. A great man for baseball is Babe Ruth.

Penn liners will take trips to Palm Beach next winter with the promoters. Slugging the prize Barrett at the rate of \$10 a week for cooking for the cooking for ten weeks.

The average professional athlete gets an idea after he reads some of the laudatory remarks contained in articles written by experienced sportswriters and hysterical sportsmen. Now that the world would experience difficulty in revolving with his consent. The egotistical members of the athletic profession do not come out of their daze until they borrow from "friends."

Babe Ruth has smashed out thirty-one home runs to date, while George Kelly has only one. It is as much to his credit. This is as good as to be. Ruth has his own championship.

The coming of Roger Wetherill, the British amateur who met Hutchinson in the final round of the British open tournament at St. Andrews, is interesting to all American devotees of golf.

Wetherill will arrive in New York during the latter part of the month and will meet George Hutchinson, the American open champion. He intends to compete for the national amateur title at St. Louis in September.

An open tournament that will attract a large number of players will be held at the latter end of the month at the various players will start at St. Andrews, Delaware next week.

Such players as Chick Evans and Bobby Jones are expected to play in the tournament. Evans will go home to play in the Western amateur event at Chicago which starts next Monday.

FINANCE AND BUSINESS Stocks Close Irregular; Leaders Show Gains Some Restful Hot Weather Books

By B. C. Forbes

New York continues to reach out to the farthest corners of the continent for brains. A powerful financial institution has just announced that it is bringing East one of the ablest bank brains of the Pacific coast. This action follows the recent drafting of a coming Middle Western banker by the same bank. The largest or gasinations now divide the country into sections and appoint a towering figure from each section to take command. People in distant parts of the country like to wish New York banking business with their own.

I am often asked: "Who is the most interesting of the 'Mc men' you have met?" I have no hesitation in replying, "John D. Rockefeller." Mr. Rockefeller, who was eighty-two years of age, even in his usual game of golf. Even in these warm days, he has been out hitting the ball with his usual accuracy of aim. He hasn't naturally been strong, but he has been a professional, but it is most unusual in him to either "hit" or "miss." His rule, about the rule, are almost wonderful in their straightness. The public green in golf has been his own with first class players.

I have just received word that Coleman D. Post has practically recovered from the grip which has been so long upon him. He was persuaded by his doctor to go to Colorado for two or three months. He will shortly return, enjoying his customary ideal health and vigor, which he has enjoyed since the time he drove miles in a Kentucky coal mine, as part of his training to him in the coal properties, after his graduation from the Massachusetts Institute of Technology. This coal mine, the Senator believes that "what's worth doing is worth doing in these days when matters relating to finance, industry and commerce are so important at the moment at Washington, the advent of so able and experienced a business man to go to the great value to the nation."

Senator Hitchcock's bill proposing the creation of a "bank of nations" with a capital of \$2,000,000,000, of which \$1,000,000,000 is to be subscribed by the United States government, is being vigorously and successfully repudiated. Not a single banker could be found who believed in it. In fact, that the bill is international, financial and commercial problems lie in this direction.

Incidentally, the Foreign Trade Financing Corporation is finally ready to start business in New York. It won't have the aimed at \$100,000,000 in capital, but it is expected to be hopeful of having \$40,000,000. This is quite enough as a starter. The lack of interest in this corporation thus far by the banking fraternity has been the cause of the lack of interest in this corporation. The lack of interest in this corporation has been the cause of the lack of interest in this corporation. The lack of interest in this corporation has been the cause of the lack of interest in this corporation.

Since Charles R. Mitchell became president of the National City Bank, he has been a great success. He has brought the bank back to its former position of leadership. He has brought the bank back to its former position of leadership. He has brought the bank back to its former position of leadership. He has brought the bank back to its former position of leadership. He has brought the bank back to its former position of leadership.
